Journal of the Mathematics Council of the Alberta Teachers' Association

Volume 57, Number 1

December 2021

Appreciating Perspectives

Guidelines for Manuscripts

delta-K is a professional journal for mathematics teachers in Alberta. It is published twice a year to

- promote the professional development of mathematics educators and
- stimulate thinking, explore new ideas and offer various viewpoints.

Submissions are requested that have a classroom or a scholarly focus. They may include

- letters to the editor;
- personal explorations of significant classroom experiences;
- descriptions of innovative classroom and school practices;
- reviews or evaluations of instructional and curricular methods, programs or materials;
- discussions of trends, issues or policies;
- a specific focus on technology in the classroom; or
- a focus on the curriculum, professional and assessment standards of the National Council of Teachers of Mathematics (NCTM).

Suggestions for Writers

- *delta-K* is a refereed journal. Manuscripts submitted to *delta-K* should be original material. Articles currently under consideration by other journals will not be reviewed.
- If a manuscript is accepted for publication, its author(s) will agree to transfer copyright to the Mathematics Council of the Alberta Teachers' Association for the republication, representation and distribution of the original and derivative material.
- Peer-reviewed articles are normally 8–10 pages in length.
- All manuscripts should be submitted electronically (in Microsoft Word format) and double-spaced. All pages should be numbered.
- The author's name and full address should be provided on a separate page. If an article has more than one author, the contact author must be clearly identified. Authors should avoid all other references that may reveal their identity to the reviewers.
- Pictures or illustrations should be submitted as separate files (such as JPEG or GIF) and clearly labelled. Their placement should be indicated in the text of the article. A caption and photo credit should accompany each.
- All sources should be properly referenced. Entries in the reference list and in-text citations should be formatted consistently, using the author–date system.
- If any student work is included, please provide a signed consent form from the student's parent/guardian allowing publication in the journal. The editor will provide this form on request.
- Send manuscripts and inquiries to the editor: Lorelei Boschman, c/o Medicine Hat College, Division of Arts and Education, 299 College Drive SE, Medicine Hat, AB T1A 3Y6; e-mail lboschman@mhc.ab.ca.

MCATA Mission Statement

Providing leadership to encourage the continuing enhancement of teaching, learning and understanding mathematics.

CONTENTS

From the Acting Editor's Desk	3	<i>Barbara O'Connor</i>
CONVERSATION STARTERS: ISSUES IN THE FIELD		
One Teacher's Perspective on the Proposed K-6 Mathematics Curriculum	4	<i>Darcy House</i>
PROBLEM-SOLVING MOMENTS		
Celebrating Mathematics 2020 Learning Challenge	6	
Producing Equivalent Fractions "Additively": The Case of the 1/2	7	<i>Jérôme Proulx</i>
A Response to Proulx's "Producing Equivalent Fractions 'Additively': The Case of the 1/2"	13	<i>Lynn McGarvey</i>
FEATURE ARTICLES		
Alberta's K-9 Mathematics Program of Studies: Metaphor and Implied Meaning	15	<i>Shimeng Liu</i>
Engaging K-12 Teachers in Mathematical Puzzles and Problems	21	<i>Richelle Marynowski, Shelly Wismath, Verna Mabin, Michelle Campmans, Lynn Suttie and Alana Millard</i>
